Earthquake: When Is the Next One?

Usually the answer is “Today.” Every year there are several thousand earthquakes worldwide and about 60 per day in California. That’s hard to believe, but it’s true. Most earthquakes are below 2.5 in magnitude and generally cannot be felt by humans. Large earthquakes still pose a risk in Cupertino due to our dense population and expansive infrastructures. For Cupertino residents, it’s time to get educated about earthquakes and take a Personal Emergency Preparedness Class. (See Below)

What If a Large Earthquake Hits?

Your first priority during an earthquake is to stay safe. If you are indoors, DROP to the ground; take COVER by getting under a sturdy table or other piece of furniture; and HOLD ON until the shaking stops.

If there isn’t a table or desk near you, cover your face and head with your arms, and crouch in an inside corner of the building. Stay away from glass, windows, outside doors and walls, and anything that could fall, such as lighting fixtures or furniture. If you are in bed when an earthquake occurs, stay in bed and cover your head with a pillow. If you have a heavy light fixture over the bed that could potentially fall on you, move to the nearest safe place such as the floor, under the bed, or near an interior wall. Stay inside until the shaking stops and it is safe to go outside. If you attempt to go outside while it’s shaking, you risk falling down or getting hit by falling debris.

If you are outdoors, stay there. Move away from buildings, streetlights, and utility wires. Once in the open, stay there until the shaking stops. Again, the greatest danger is from falling debris.

If you are in a moving vehicle, stop as quickly as safety permits and stay in the vehicle. Avoid stopping near or under buildings, trees, overpasses, and utility wires. Proceed cautiously once the earthquake has stopped.

Is my Home Safe to Stay in or Enter?

This is a difficult question unless you are a professional building inspector. In general, has the building slid off the foundation? Are there walls tilting from vertical? Can you smell smoke, gas, or any other toxic smell? Is there a pole or tree leaning on or penetrating the roof? Lastly, is there any electrical sparking nearby or coming from the house? If none of these situations are present, you can proceed cautiously into the house or stay in the house. Otherwise, exit or stay out until it can be inspected by an appropriate contractor, PG&E person or the Fire Department. Remember that there is more than likely glass and other debris on the floors, so wear appropriate footwear until things can be cleaned up.

Upcoming Public Sessions:

FREE! Earthquake Preparedness and Home Safety

The class is one hour and is scheduled on request for Cupertino businesses, churches, or social groups of 8 or more. This class can come to you! Contact the Cupertino Office of Emergency Services (OES) at 408.777.3335, email oes@cupertino.org for more information, or to request a class for your company, group or organization.

FREE! Personal Emergency Preparedness Class (PEP) offered by the Santa Clara County Fire Department. The class covers earthquake safety, disaster preparation, disaster communication tips, first aid techniques that save lives, home safety, fire safety, including how to use a fire extinguisher, emergency supply suggestions - and more! The next two PEP classes are: Wed, Oct 19th, 6 pm - 9 pm, Los Gatos Police Operations Building, 15900 Los Gatos Boulevard, Los Gatos and Tue, Nov 8th, 6pm - 9pm, Joan Pisani Community Center, 19655 Allendale Avenue, Saratoga. For Registration by e-mail, info@cnt.sccgov.org, (provide your full name, e-mail address, phone number and residential or work address in the West Valley, or contact the Santa Clara County Fire Department at 408.378.4010.

Community Emergency Response Team (CERT) class

This is the perfect time to learn to be part of the disaster response solution. This is an intensive training session by the Santa Clara County Fire Department on preparedness and helping others during a disaster. The course is offered four times a year and you will have one-year to make up any missed sessions for graduation. You may attend the final exercise once all six sessions have been completed. We encourage all Cupertino residences to attend this worthwhile training. The next class runs October 18 - Nov 3, Tuesday and Thursdays, 6 - 9 pm with the final hands on and graduation Saturday, Nov 5, 9:30 am - 12:30 pm. All classes will be held at Los Gatos Police Operations Building, 15900 Los Gatos Boulevard, Los Gatos. The registration fee is $35 which will be reimbursed to Cupertino residents upon successful completion of the course. If you have questions or want to register, contact: info@sccfd.org or 408.378.4010.

If you do only one thing to prepare this month: Take a Personal Emergency Preparedness class and learn how to be prepared.
I was in old Monta Vista last month and was shocked to see an old friend in really bad shape. This old friend is a not a person, however, but a tree. I remember it from my childhood, and since it's a pepper tree, I just never considered it would someday die.

It was old when I was a kid. Big, knobby trunk, and wide spreading branches—and it got a little bigger every year. Bees loved the itty bitty white blossoms, kids would climb it, and cars had to swing out around it a little bit when making a turn because it sat right on the corner where there were no sidewalks.

But now, it has shriveled to a shadow of its former shady bulk and there are dead limbs sticking up to the sky. I know pepper trees can be a real bother—the chopping of leaves for months on end, all those pesky red berries, and nothing much will grow under one. Still, I'm sad to see it on its last legs, so to speak. I have a dim memory of this tree being considered at one time a "heritage" tree considering its age. It has roots.

I thought I'd write a little bit this month about someone else who loved trees. In the old days, in Monta Vista, we had the Monta Vista Drugstore that was over in the tiny strip mall that has a barber/beauty shop and taekwondo studio. Before they were there, Tony Look had the drug store that took up most of the building. He was a quiet, conservative man who accomplished good things in his lifetime. He was an advocate for nature and the environment many years before others were. He was born in Eureka in 1917 and later on became a pharmacist.

In 1954, he discovered that his pioneer family's graves in northern California had been washed away along with the rest of the cemetery in a flood resulting from lumbering practices at that time. Prior to the 1950s, there were 300 gigantic redwoods that served as a watershed in a forest that John D. Rockefeller had helped establish with millions of dollars and large chunks of land. The area, including the massive trees that held the soil together on the hillsides, was lumbered out in 1954 causing much flooding all over the area.

Tony decided the wilderness needed some protection from irresponsible cutting, so he helped form the Sempervirens Fund—a group that had long been dormant. It dated from 1900, when San Jose photographer Andrew P. Hill and his friends successfully persuaded state lawmakers to buy 8,500 acres of old-growth redwoods in the Big Basin area. At the time, loggers were turning 300-foot-tall redwoods that had been alive at the time of Roman gladiators into fence posts and railroad ties.

Thanks to Tony and his friends' efforts, the Sempervirens Fund helped preserve another 8,500 acres of redwoods in the Santa Cruz Mountains. After Tony retired from his job as pharmacist and owner of M.V. Drugstore, he became executive director of the Sempervirens Fund and held that position from 1971 to 1985.

In 1968, a developer was moving forward with plans to build a subdivision, restaurant, and roads on Mt. McAbee, a scenic peak in the Santa Cruz Mountains, looming over Big Basin Redwoods State Park and the Pacific Ocean. With time running out and the chain saws ready to go, the Sierra Club asked Tony and his friend, photographer Howard King, to raise $12,000 to help buy the land.

Tony and Howard appealed to everyone they knew and within a month had raised $16,000, which combined with other funds from the Sierra Club and Save-the-Redwoods League, was enough to save the property from development. Today, Mt. McAbee is the most scenic overlook in the Big Basin area and enjoyed by thousands of visitors every year.

Tony Look passed away in 2006 but he left a wonderful legacy and inspired many people to carry on the work of preserving nature and big trees for all to enjoy and admire. Hope you all have a fun fall and find some favorite trees of your own. If you want to go farther afield, the mighty Sierras have wonderful fall color displays, especially on the eastern side.

Cupertino Safe Routes 2 School – Join the MOVEment!

The Cupertino Safe Routes 2 School program has expanded its program reach to include all 14 Cupertino Schools and is actively looking for more volunteers! This community safety program is a partnership between the City of Cupertino, Cupertino Union School District, Fremont Union High School District, the Santa Clara County Sheriff's Office, and YOU – our community residents. The keyword here is community, and in order to reduce traffic and increase safety in our community, we need community participation!

So how can one participate? It starts with awareness about the way we are traveling. If we want Cupertino to be a safer place to travel, we must consciously change the way we travel. If we want to empower our kids to walk and bike safely to schools, we must ensure that our actions out on the road support an environment of safe pedestrian and cyclist travel. If we want to see more pedestrians and cyclists out on the streets, we need to get out there and walk or bike! Let’s lead by example in a city that is safe to walk and bike from place to place by safely walking and biking as daily habit.

By participating in the Cupertino Safe Routes 2 School program we are accepting responsibility for our community’s safety and becoming a part of the solution rather than accepting and complaining about the problem. Below are some ways to participate in Safe Routes 2 School. We need your help to create change!

1. Take a seat at the solutions table. Come to one of our Safe Routes 2 School Working Group meetings! This is the place where ideas take shape and community input is integrated into City plans. Don’t miss your chance to be a part of it!

Potential Flooding in YOUR Neighborhood – Are You Prepared?

As the rainy season begins, residents should prepare for the possibility of flooding. Be aware that standard homeowners insurance policies do not cover losses caused by floods or mudslides. Property owners can protect against potential flood damage by purchasing flood insurance and by preparing a family disaster plan. For property owners who currently possess flood insurance, be sure to inventory and photograph your home’s contents and put important papers and insurance policies in a safe place. Some areas in Cupertino, such as properties along Calabazas Creek and Stevens Creek, are at increased risks for flooding. Visit FloodSmart.gov, which will provide you with information on your flood zone and flood insurance options. You can also call the Cupertino Public Works Department at 408.777.3354 to better understand your flooding risks.

Floods, like all natural disasters, are a hazard to people and property. Prepare for emergencies accordingly by creating a family disaster plan for your family that includes a designated place where you can rendezvous after an evacuation order is issued. The City provides the following services to help residents prepare for potential flooding:

1. Residents can pick up sandbags from various Santa Clara Valley Water District sites located throughout Santa Clara County. For pick-up locations, visit www.valleywater.org/sandbags.
2. Contact the Cupertino Building Department to get a permit before you build. The City’s Building Department has a booklet called What You Should Know Before You Hire a Contractor. Booklets are available at the downstairs counter at City Hall, or you can download the pamphlet at www.cslb.ca.gov.
3. City staff can assist with onsite flooding and drainage issues. They can provide you with practical drainage information, from directing your roof downspouts away from your house, to providing a more site specific response to drainage issues. Call 408.777.3354 to discuss your concerns regarding these items.
4. Other information on flood preparedness is available on the Cupertino website at cupertino.org/emergency, on the FEMA website at www.fema.gov, and in publications carried at the Cupertino Library.

How we can work together to protect Cupertino from flooding:

• The City’s storm drainage system is composed of street gutters, the storm drain sewer inlets (at street corners), and the pipes that connect the inlets to local creeks. This system drains street runoff into the creeks and channels on the valley floor.
• Residents can assist the City and help protect their neighborhood from localized flooding by sweeping street gutters regularly, placing swept material in a compost bin or garbage can depending on the items, and checking that nearby storm drain grates are not covered with leaves or litter. The City routinely sweeps the gutters twice a month in residential areas and once a week in commercial areas.
• In the fall, before the rains start, a contractor vacuums City storm drain inlets, and checks for any evidence of hazardous materials in the drains. This cleaning prevents any illegally dumped materials from washing into our creeks with the first rain.
• Please notify the City if you observe excess debris and trash in streams and ditches.

Accepting: Saturday, October 8th is Environmental Recycling & Document Shredding Day
Clean out those closets and head to our summer Environmental Recycling and Document Shredding Day with your old or broken electronics, confidential papers you’d like to shred and recycle, and more. It’s Saturday, October 8, 2016, 9 am - 1 pm in De Anza College’s Parking Lot A.

Accepted items:
• Electronic waste (computers, monitors, and printers)
• Universal Waste (batteries, cell phones, CFLs, and fluorescent tubes)
• Reusable furniture (not dirty, stained, or torn)
• Clothing
• Home construction debris (limited to what will fit in a pickup truck)
• Residential documents (for confidential onsite shredding; two-box limit)

Items NOT accepted:
• No paint or toxic chemicals
• No mattresses

For further information, contact Recology at 408.725.4020. Can’t make the event? You can still get rid of unwanted electronics at the FREE e-waste drop off offered for Cupertino residents by Apple Computer (now at 1326 Kiefer Road, Sunnyvale). See cupertino.org/environmentalday for more disposal details.

Protect your local creek: It’s not just a good idea, it’s the law!
You may not be aware of them, but Cupertino has four creeks and many smaller streams running through town, and all that water is heading to the San Francisco Bay. And did you know that
Poetry Reading at Cupertino Library
Story Room – No Charge
Two Poets Laureate and a winner of the 2016 Rotary Teen Poetry Contest will read on Thursday, October 13, 7-8:30 pm. San Ramon Poet Laureate Shikha Malaviya, Cupertino Poet Laureate Ann Muto and Aryia Dattamajumdar will read poems related to the theme: “Myself, My World, Our World.” All poets are invited to read during the Open Mic period.

Shikha Malaviya is co-founder of The (Great) Indian Poetry Collective, dedicated to introducing new voices from India and the Indian diaspora. She has been a featured TEDx speaker, AWP mentor, and has been nominated for the Pushcart Prize. Her book of poems is called Geography of Tongues. Shikha was a resident of Cupertino from 2002-08, when she helped foster the joy of poetry/creative writing in the classroom at Regnart Elementary and McAuliffe Elementary Schools where her children were students.

Aryia Dattamajumdar is a student at Cupertino Middle School. Her favorite class in school is science. She discovered through her volunteer activities that leading a group of people takes a community. This competition helped her master the courage of writing poetry and created a life-long passion for poetry. In addition to writing poetry, the competition motivated her to become more active in poetry events in the community.

REMINDER: Poetry Memoir Sessions continue from 10:45 am to 12:15 pm in the Story Room at the Cupertino Library. Direct any questions to poetlaureate@cupertino.org. Space is limited, so please sign up at poetlaureate@cupertino.org.

WEDNESDAYS:
October 5 – “A Poet’s Place is in the Poem”
October 19 – “Body of Work”
November 2 – “Holidays”
November 16 – “My Poems, My Book”

there are laws requiring Cupertino to keep those creek waters free of trash and pollutants? That is how we protect the fish and wildlife both in the creeks and in the Bay.

Cupertino needs your help! To protect your nearest creek, remember that the storm drains that you see in streets and parking lots were designed to protect Cupertino from flooding as a result of heavy rain by channeling water off the streets and into the creeks! That means any litter or oil or pollutant that ends up in the street or on the ground could easily get washed into a storm drain and then into a creek, endangering local wildlife.

What can you do?

Don’t put anything down a storm drain: Common examples of illegal discharges include mud, silt, litter, pool water, grease, oil, landscaping material, pesticides, fertilizers, sand, wash water, soap, automotive fluids, paint and food waste.

Call the City at 408.777.3354 if:

- You see anyone purposefully dumping anything down a storm drain (That’s illegal!)
- Someone is overwatering their yard and the excess is reaching to the storm drain (Water from yards can contain pesticides, fertilizers, herbicides, and pet waste!)
- A storm drain smells unusual (That could mean something illegal has been dumped in it!)
- You see trash in or near a storm drain (It could wash in!)

We want to know and we have staff to evaluate the situation and help.

Biking Safety Tip #7

**Riding in Sidewalks/Paths/Crosswalks**

The state vehicle code specifies that individual cities may create their own laws regarding bicycle riding on sidewalks and in crosswalks; however, if a bicyclist rides in a crosswalk, he or she relinquishes his or her right-of-way. Cupertino’s ordinance regarding crosswalks states that it is illegal for bicyclists (including minors) to ride in a crosswalk – you must get off and walk. This applies to both marked and unmarked crosswalks at controlled and uncontrolled intersections.

Cupertino’s ordinance regarding sidewalks and pedestrian paths states that children under 10 years of age may ride on a sidewalk or pedestrian path as long as they are considerate of pedestrian safety and are not in front of stores (in a business district). For additional information see our web site, walkbikecupertino.org.
Announced that council gave direction to the city attorney for conference with legal counsel – existing litigation pursuant to paragraph (1) of subdivision (d) of Gov't Code § 54956.9, city of Cupertino v. Siemens Industry, Inc. Et al, case #1-14-cv-272838
Presented the proclamation to Cupertino resident Rajee Shah in recognition of performing community service

2. Walk or bike to work one more time per week than you currently do. Maybe this means walking or biking just once a week — that’s great! Any amount of progress is progress and you’ll take one more car off the road!

3. Walk or bike to school with your children. Allow mornings or afternoons to be times of family bonding while meeting neighbors and enjoying fresh air. If you live too far to walk or bike, park ½ mile away and walk or bike the rest!

4. Join in a carpool at least once a week. Carpooling is a fantastic way to reduce the number of cars on the road and improve community health. Plus it can save you the stress of driving your child every single day!

5. Lead a walking group! Frustrated with the backup of cars in your neighborhood due to school traffic? Volunteer to be a walking group leader at your local school and eliminate 10-20 cars from the road per morning! Contact the Safe Routes 2 School Coordinator for planning assistance.

6. Volunteer during mornings or afternoons at your local school! Are you seeing near misses during pick-up and drop-off? Why not help and ask your local school staff if you can volunteer to help calm traffic flow? Your liability is protected by the federal Volunteer Protection Act!

For more information on any of these steps, contact the Cupertino Safe Routes 2 School Coordinator at saferoutes@cupertino.org!

As scientist and philosopher Aristotle once said, “We are what we repeatedly do.” Let’s ensure that every time we ride, walk, or drive that we adopt the mentality that our family and friends are biking or walking on the road alongside us and ALWAYS prioritize the lives and safety of others.
