Bike to Work Day (BTWD) is a community event that encourages residents to try bicycling as their mode of transportation to get healthy exercise while relieving traffic congestion, improving air quality, reducing petroleum consumption, and saving money.

Silicon Valley Bicycle Coalition coordinates BTWD for Santa Clara County. Bay Area-wide BTWD contests challenge groups of cyclists to form teams and submit records of their bike commuting during Bike Month, which is the month of May. Information can be found on the SVBC web site at svcbikes.org/btwd. For information to help map bike routes to work, check the 511 web site at bicycling.511.org.

Last year we had a busy morning at our Cupertino Energizer Station, with 152 cyclists headed north and another 119 pointed south for a total of 271 riders. This compares to the 230 riders tallied in 2007, or an increase of 18% over last year.

Of the 271 riders, 97 stopped for coffee, cake and conversation. Of this group, 87 responded to our “How Far Will You Commute by Bike Today” survey with a total roundtrip figure of 2,536 miles, and an average commute of 29 miles. Last year 88 riders stopped and reported they would pedal a total of 1,761 miles for a average roundtrip commute of 20 miles.

Golfers can play in a 9-hole scramble in the morning; foursomes will play in the afternoon, preceded by a Hole-in-One contest and lunch. Dinner, a silent and live auction will follow the 18-hole golf round. Interested golfers should contact: Marc Haberman, Co-chair, at 408.294.3431 or mhaberman@cypressridgesolutions.com.

World Journal will hold 9th Annual Mother’s Day Faire event in the city of Cupertino on May 9 & 10. This event has been a resounding success in the past, securing over 120 booth exhibits, with cultural diversity performance on the main stage. In addition, there will be various seminars on education, health and finance held at the Senior Center.

As the leading local Chinese media, World Journal aims to work closely with the city of Cupertino to promote cultural diversity across different ethnic groups.

In addition, World Journal will be partnering with the Hsinchu City, the sister city of Cupertino, to host this year’s Mother’s Day event with the belief that art, music and cultural heritage should not be limited to only within national boundary, but to be shared and appreciated across the world.

Interested parties should contact Tony Vandersteen at anthonyvann@comcast.net or call at 408.996.1944.
Every Month is Earthquake Preparedness Month!

Radio and television depicted overwhelming scenes of the 6.3 earthquake in Italy last month. At the time of this printing, the death toll was 287. What about the other 68,216 residents of the town? Only 1,170 were injured, 28,000 were not able to return to their homes. That leaves 39,046 who are OK.

If you were one of the 39,000 could you help?
• Do you know basic first aid – or have advanced medical skills?
• Could you walk through neighborhoods to see if anyone needed anything?
• Have you taken training to work in a Red Cross Shelter?
• Do you have extra food and water to share?
• Can you answer phones and provide information?
• Do you know how to use a ham radio?
• Could you help round up stray animals?
• Can you be a translator?
• Do you have other management or technical skills?

Any ONE of these tasks could make a difference. It takes an entire community to recover from an earthquake. When people offer to volunteer at the time of a disaster – without any prior contact with the emergency response agencies – they’re called Spontaneous Unaffiliated Volunteers (SUVs). All SUVs must sign a registration form to be covered by State Workers Compensation Insurance in case they are injured.

Why should you pre-register as a volunteer instead of just showing up?
• If you have special skills that require a license, it allows the City to verify your credentials and use you to the full extent of your abilities.
• You can learn to help in ways you didn’t know you could.
• It allows the City to put together resources and plans that incorporate the use of trained volunteers.
• Allows you to practice before the actual event.

Good volunteers start at home. Follow these steps:

Step One. Take a free personal emergency preparedness class.

Step Two. Prepare your home and family
a. Make sure items won’t tip over, fall out of cabinets or off shelves and hurt someone. (Think about large bookcases, TVs, bunk beds and dishes).
b. Teach everyone when and how to turn off the water, electricity and gas meter. Exercise the gas meter valve by moving it 1/8 turn in either direction.
c. Identify safe spaces to drop, cover and hold in every room. (Sturdy tables, against a bare wall, in bed with the pillow over your head)
d. Pick an out of area contact for the family to call when local phones don’t work – and learn how to text!

Step Three. Have emergency supplies in your home and car
• Flashlight and extra batteries.
• Food and water.
• First aid kit and manual.
• Cash and credit cards.
• Portable battery-operated radio and extra batteries.

Step Four. Help Your Community Get Ready
Tell family, friends and neighbors about training opportunities

Contact the Office of Emergency Services and tell them what you are willing to do to help during an earthquake. For more helpful tips and information visit: http://www.fema.gov/hazard/earthquake/eq_before.shtm

If you do only one thing to prepare this month...
Learn something new! Go to the Cupertino website and ready about emergency preparedness or enroll yourself and your family in one or several of the classes listed below.

Upcoming Classes & Preparedness Events:
• Kaleidoscope Public Safety Training for 6–12 Grade CPR, First Aid, Earthquake Prep, Fire Safety/Extinguisher training, Law Enforcement presentation and 9-1-1 tour. July 20-24, 9 am-1 pm, $50/$60. Registration required, limited to 20 students.

• Personal Emergency Preparedness Workshop April 24, 6:30-9:30 pm, May 17, 9:00-Noon, June 11, 9 am-Noon.

• Pandemic Flu – Online Presentation. www.cupertino.org/pandemicflu

Spring is a time for exploring back roads. Once you get away from the freeways, Santa Clara Valley has some wonderful back roads. If you are lucky enough to live in Cupertino, back roads are 10 minutes from your driveway. Here’s one of my favorites and a story of a lady who contributed a great deal to her little corner of the world.

Behind Stevens Creek dam, you get a choice; keep bearing to the left on Stevens Canyon Road that parallels the creek or make a hard right and head uphill on Montebello Road. A lot of Italians settled on that side of the mountain in the old days; the terrain reminded them of the hills in Italy. One family who left their mark and whose descendants still live on the road is the Picchetti family. In 1978, some stories were collected and put it a little folder called “Prune Pits”. Here is a little bit of Josephine Picchetti’s story. At the time this interview was conducted in 1978, she was 76 years old.

Josephine Picchetti came from Italy in 1921. After she married John Picchetti and they lived on Montebello Road. John had been working for the Jesuits at the Villa Maria on Stevens Canyon Rd. The priests persuaded John he could make a good life in the foothills so he purchased and worked the land, and when Josephine came, eventually built a winery. The work was long and hard but Josephine recalled good times, too.

“We used to have dances, up above the cellar, on top of the winery. Just one room – it’s big. That’s where they used to put prunes and walnuts and everything.” (Today, the “big room” is the tasting room at the winery) “Oh, we had people all over the place, there was always someone who played the accordion and we danced and sang. I was never much for dancing, but there were times, occasions, you know, when you do. In those days there wasn’t much to do (in the way of entertainment) but get together.”

She recalled growing up in Italy and farming there, working the land. And then John came over “on a trip or something” and they met, married and came back to Santa Clara Valley and went straight up to the ranch. They had 3 boys and a girl. In addition to raising the children, Josephine cooked from morning to night, washing by hand – there was the ironing, the baking and canning of foods, churning butter, gardening, harvesting and tending to all the livestock. The children did chores and played with the animals. They had birds – canaries in a big cage and chickens and once there was a badger for awhile.

Josephine’s father-in-law, Vincenzo Picchetti, helped found the Montebello School (now 117 years old and still in use). Josephine was a trustee for the school for many years. In the interview she recalled, “We built a nice school up there too, a small school, way up there, past our ranch, way up on the hill. It was a beautiful place. Oh, with a view and everything! The school teacher there, use to stay with us at our house. “The teacher’s room”, it was always the “teacher’s room”, is what we called it. In the morning she would walk up with the kids. It was a long way to go up. But they would take the short cut through the farm up there. But that school, it’s been going ever since those days and it’s still going”.

They didn’t go to the store for food. It was too far away, too hard to go and there wasn’t the money for store-bought goods. They raised vegetables and fruits and canned them for the winter. The cow provided milk, cheese, and butter. Sometimes they didn’t get off the ranch for months at a time – there was too much work to do. But people would come visit especially on Sundays. Then there was even more work for the women to do. Sometimes a drifter would come through and he would stay on for a while, performing labor around the ranch in exchange for a place to stay and food. The huge stonewall at the entrance to the winery was built by one drifter who came through and stayed awhile. Relatives came and stayed and people came to buy wine. Sometimes there would be big bbq’s – meat to roast and much homemade food. The men would play bocce ball and the women would watch the children playing and share stories and gossip. “It was nice to get together”, Josephine said, “growing up here, it was isolated. You worked together, you played together, you fought together – so you really raised a close family”.

At the end of the interview, Josephine looked pleased. She said, “I never thought about it, never thought it... you know...it would be so interesting to...to remember. You never think about it. Thought it was regular life... like that.”

For Your Information
DATABASES AND RESEARCH TOOLS
Santa Clara County Library subscribes to online databases for adults and children, on a variety of subjects, including business, science and literature. Many of the databases are available even when the library is closed. If you’re not at the library, just go to the library’s webpage at www.santaclaracountylib.org, click on databases, and enter your library card and PIN number to access a database. You may choose from any of the available databases. For example, you can research a company using Standard and Poor’s Net Advantage, prepare for an academic or professional exam with Learning Express or find information for a state report in America the Beautiful. If you have any questions about the databases, please call the Reference desk, at 408.446.1677, during the library’s open hours.

THE FRIENDS OF THE LIBRARY
BESTSELLER COLLECTION
Funded by the Friends of the Cupertino Library, the Bestseller Collection is a special browsing collection designed to make it easy to find a bestseller on the library shelf when you visit the library. Submit information about clubs and organizations meeting in Cupertino to Julie Helza, City of Cupertino, 10300 Torre Ave., Cupertino, 95014, 408.777.3212, julieh@cupertino.org

Clubs with asterisks meet more than once monthly. Call the contact number for details.

The City Hall will be closed on Monday, May 25 for Memorial Day.
Washing Cars? Watch Your Soap
Since all types of soap and detergent (including “biodegradable” soaps) are toxic to fish and other aquatic creatures, when you wash your car, don’t pour the leftover bucket of soapy water into the street or down a storm drain. Storm drains are directly connected to the nearest creek. Instead, soapy water should be poured down a sink or toilet, or on a landscaped area where it won’t run onto a sidewalk. Consider whether you even need to use soap on your car. Much of the dirt on cars can often simply be hosed off with water or wiped off with a wet sponge. If you become involved with a fund-raising carwash, please ask the organizers to contact the Public Works Dept, at 408.777.3354 to borrow the City’s Free Car Wash Kit. The Car Wash Kit drains runoff into the Sanitary Sewer lines, rather than into the stormdrains, which flow untreated into our creeks and into the Bay. Or, visit the City’s website www.cupertino.org/environmental and click on Stormwater Pollution Runoff Prevention. To schedule pick up and training on the use of the kit, email www.cupertino.org/environmental or 408.777.3354.

Compost Available Again
The Stevens Creek Quarry Compost site on Stevens Canyon Road (across from the dam) is open for bulk compost pickup on Friday and Saturday mornings from 8:30 to 11 am, at no charge. No appointments are necessary. The City’s Free Compost has become very popular, so please plan on waiting in line for the compost. Also, please be advised that residents are limited to 15 minutes of shoveling, especially when other cars are in line waiting. The site is closed during rainy weather and on holiday weekends, such as Memorial and July 4th weekends. Please bring proof of Cupertino residency. For recorded information call 408.777.1320, or city offices at 408.777.3269 (6:30 am - 3:30 pm). You may also access information from the city’s website at http://www.cupertino.org/compost.

Spring Cleaning Garbage Info
Residents planning to do “spring-cleaning” should remember they can use “On-Call” Garbage Disposal Days, or Yardwaste/ Woodwaste Recycling Days (two days per year), at no charge. Call the Los Altos Garbage Company for an appointment: 408.725.4020. (Available to residents with individual cart garbage service only). Residents with just a couple of extra bags of trash can order “extra garbage” tags from the garbage company by calling 408.725.4020. Tags cost $5.79 each or 10 for $55.03. For information on the city’s garbage and recycling programs visit www. cupertino.org/environmental. For information on how to recycle just about anything, call the Recycling Hotline: 408.924.5453; or look on-line: www.recycluestuff.org.

Household Hazardous Waste Disposal
During spring-cleaning, remember that it is easy and free to properly dispose of unwanted hazardous cleaning, hobby and gardening products. Residents wishing to make an appointment for disposal should call 408.299.7300. Examples of typical items that are brought in to the program include: old paint, pool chemicals, used motor oil and antifreeze, batteries, solvents, bad fluorescent tubes or bulbs, mercury thermometers, fertilizers and pesticides. E-Waste is now accepted at the permanent and temporary drop off locations. Small businesses also may be eligible to participate for a nominal fee. The County’s Household Hazardous Waste Program will be holding a free disposal event in Cupertino on August 22.

Creek Cleanup on May 16
Be Part of the Solution to Creek Pollution!
The City of Cupertino will host a community cleanup on Saturday, May 16, from 9 am to 12 pm at Creekside Park, 10455 Miller Avenue, Cupertino. Volunteers and City staff will clean up areas surrounding Calabazas Creek, which runs through Creekside Park toward Miller Ave near Vicksburg Dr. Participants will meet at the park after 9 am. Instructions on safety and debris removal will be provided by City staff. Gloves, trash grabbers and other tools will be distributed. Volunteers are encouraged to dress for safety; wear old shoes, long sleeves, pants and sunscreen. Free Refreshments will be offered. Do something good for your community and have fun, bring a friend, make it a family event! Due to limited parking, you are welcome to park in the First Baptist Church of Cupertino parking lot during the event, or consider walking or riding your bike to the event. To learn more about Cupertino’s Creek Cleanup Day, please contact the Public Works Dept at 408.777.3354, or visit the City’s website at www.cupertino.org. For additional Creek Clean Up location sites in Santa Clara County, please visit www.cleanacreek.org.
Pest control fact sheets that include information on less-toxic products and techniques are available again this Spring, at two local nurseries in Cupertino: Yamagami’s and Summerwinds, both on S. DeAnza Blvd., just south of Hwy. 85. Nursery staff has received special training on pest control and can guide customers in using an “Integrated Pest Management” approach to resolve their bug problems. Fact sheets are also available at Quinlan Community Center and at the Cupertino library.

Visit our website www.cupertino.org/environmental to find a list of yard maintenance business that have been trained to use environmentally friendly methods.

Save Water: Home water use has major impacts on energy use. Using a dishwasher with large loads saves significant water and energy from hand-washing dishes, and so does using large loads in the washing machine instead of using many small loads. Drip irrigation systems on automatic timers are another way to save lots of water that is otherwise used unnecessarily for landscaping.

Use the Power of Your Green: Avoid over-packaged products and disposable goods, when possible, buy in-season food produced in your area, and buy in bulk. Packaging and transportation use great amounts of energy. Reduced packaging means not only cutting down on the pollution, but saving energy required to make and dispose of the packaging.

Garden Green: Use drought-tolerant plants and avoid pesticides. Native and drought-tolerant plants not only save you water, they can save you time and the expense of using pesticides and insecticides. Native plants, including lawn varieties designed for your climate are usually better adapted for local conditions and pests than so-called “exotics”.

Spare the Air: Reduce your peak time (1-6 pm) energy use during heat waves and drive less on high air pollution days.

Reduce Litter: Use reusable grocery bags. If every household in America used reusable bags, it would reduce the number of billions of disposable plastic and paper bags. Fewer paper bags will reduce the number of trees cut down. Fewer plastic bags will reduce the plastic debris in our waterways, which is hazardous to birds and marine life.

Water Conservation

The Santa Clara Valley Water District has implemented a mandatory 15% reduction in water use for its customers. Conservation is becoming more important since there is a limited supply of water to meet the demands of a growing population. Saving water starts at home. Without much inconvenience, practicing water conservation can help save hundreds, even thousands of gallons per month. Try to do one thing each day to save water. Every drop counts and every person can make a difference.

Water Conservations Tips:
- Fix those leaks! Leaks allow water and your money to go down the drain. To help detect hidden leaks, turn off anything that uses water and see if your water meter is still moving. If it is, there could be a leak somewhere.
- Install water-efficient devices such as high-efficiency toilets, high-efficiency clothes washing machines, low-flow showerheads and faucet aerators.
- Only run your washing machine or dishwasher with full loads.
- Turn off the faucet while brushing your teeth and shaving.
- Water your lawn only when needed, generally once every three days during the summer.
- Water in the early morning. Many irrigation experts feel the best time to water is between midnight and 6 am because evaporation is kept to a minimum.
- Check sprinkler timers and reduce watering times if necessary.
- Check sprinkler heads, valves and drip emitters once a month. Make sure heads are aimed correctly (no matter how much you water it, concrete will not grow).
- Apply a layer of organic mulch around plants to reduce moisture loss and keep weeds down.
- Ask your local nursery for the types of plants that will save you water. Water wise plants can be beautiful as well as practical.
- Use a broom to sweep off pavement. Using the hose to wash down sidewalks, driveways, and patios, wastes a lot of water and money.
- Use a spray nozzle with a shutoff handle on your hose so water doesn’t flow continuously.

The water district offers numerous programs and rebates to help residents and businesses save water and money. To learn more or to sign up for a free water wise house call, visit www.valleywater.org or call 408.265.2600.

How Property Tax Bills Are Calculated

The County Assessor determines the assessed value of all assessable property in Santa Clara County. Under Proposition 13, the maximum property tax rate is 1% of the property’s net taxable value. In addition, the bill will include an amount necessary to make the annual payment on general obligation bonds or other bonded indebtedness imposed by public agencies and approved by the voters.

The property tax revenue collected by the County Tax Collector supports schools (including local elementary, high school and community college districts) and local government agencies including cities, re-development agencies, the County, and special districts. The basic one-percent tax rate is divided among the public taxing agencies in Santa Clara County. Due to changes in state law, some local governments are receiving a greater, or smaller, share of revenues from property taxes than in prior years. The city of Cupertino receives one of the lowest shares of revenue of only 5%.

The valuation of property by the Assessor’s Office every year creates the foundation that supports the delivery of essential public services provided by local governments. The County Assessor’s Office does not calculate taxes, collect taxes or allocate tax revenues. For information regarding the collection and allocation of property taxes, please contact the county Tax Collector at 408.808.7900 or the county Controller at 408.299.5200.

Sign up for a FREE Home Energy Audit

U.S. households produce 21% of the country’s global warming pollution. That means that smart choices at home can really make a difference! Cupertino residents ready to take action to reduce their home energy use AND costs can sign up for a FREE Acterra Green@Home energy audit. Audits are managed by trained volunteers that meet with residents in their homes to install simple energy-and-water-saving devices and create home energy conservations plans. Sign-up today by contacting the program’s coordinator, Liz Muir at lizm@acterra.org or 650.962.9876 x350.
