The theme for Public Works Week 2019 is “It Starts Here.” The City’s Public Works professionals are committed to providing the citizens of Cupertino exceptional service, ensuring that current and future generations will enjoy the City’s safety, integrity, beauty, and innovation. Take a look at what Public Works is doing in the community.

1 TRANSPORTATION

• Oversees the operation and maintenance of the City’s 60 traffic signals, including eight traffic signals owned by the State of California.
• Maintains the fiber optic traffic signal communication infrastructure which allows monitoring of the street network from the City’s Traffic Operations Center.
• Regularly coordinates with the Cupertino Union School District, the Fremont Union High School District and the Santa Clara County Sheriff Department to focus efforts on student safety and congestion relief around the City’s 14 public schools through the Safe Routes to School Program.

2 TREES & RIGHT OF WAY (MEDIANS, PUBLIC PEDESTRIAN AREAS)

• Maintains 27,153 trees and 53.5 acres of medians and right of way areas. They are also responsible for median renovations.
• The team of 16 also coordinates with the Streets Maintenance Division on root inspections of effected trees.
• Actively engages in community outreach, including tree planting events.

3 STREETS

• Maintains 142 center lane miles of streets.
• The 11-person team maintains sidewalks, curbs, and gutters - including 2,200 storm drain inlets.
• Maintains 9,645 traffic related signs in addition to 3,200 streetlights and 480 park / parking lot lights.
• Manages the street sweeping contract and maintains all environmental compliance materials.

4 FACILITIES & FLEET

• Maintains 45 buildings (205,000 sq. ft.), 102 vehicles and 600 pieces of equipment.
• The team of 11 maintains the Blackberry Farms pool, Civic Center fountains and coordinates small tenant improvement projects.
• Supports maintenance operations, Recreation and Community Services, and Corporation Yard programs.

5 CAPITAL IMPROVEMENT PROJECTS (CIP)

• Consists of a 7-person team (4 full-time and 3 part-time) and is responsible for delivering all Capital Improvement projects.
• Capital projects can be either new construction or renovation of existing improvements or buildings. Projects range in size from small ADA Improvements to large multi-million projects.
• This Division delivers multiple high value projects on an annual basis.
6 GROUNDS

- Maintains Cupertino Union School District Athletic Fields for youth sports programs as well as all playgrounds in accordance with California Playground Safety Requirements.
- 20-person team responsible for maintaining 19 parks and open space areas.
- Responsible for water fowl management and provides ongoing support to park and community services programs.

7 ENVIRONMENTAL PROGRAMS

- Responsible for the compliance of a variety of environmental laws pertaining to stormwater pollution prevention, creek eco-system protection, recycling, composting, reduction of waste going to landfill, and all related outreach and education to community.
- Manage the franchise agreement with Recology South Bay. This contract includes collecting trash, recycling, and organics.
- Arrange for operation and staffing of the compost site, where residents of Cupertino can pick up compost at no cost from spring through fall each year.

8 ENGINEERING

- The division provides engineering review and permitting of projects in the public right of way, including work related to utility company operations.

9 ASSET MANAGEMENT

- The Asset Management team has identified and logged over 105,000 assets maintained by Public Staff - and they’re still counting
- The sophisticated system is also capable of tracking work orders.
- Public Works staff completed 3,368 work orders and responded to 1,169 Cupertino 311 requests submitted in 2018.
Bike Projects

McClellan Road Separated Bike Lanes (Coming this Summer!)
McClellan Road from Imperial Avenue to Stelling Road

Separated bike lanes on McClellan Road will separate cyclists from motor vehicles with flexible bollards and wide curbs. The first phase of the bike lanes will be from Imperial Avenue to Stelling Road, and will include improvements to the intersections at Stelling and Bubb Road. The separated bike lanes will eventually extend from Byrne Avenue to Torre Avenue. This project is planned to be phased in over several years.

* This map highlights projects with upcoming milestones, for a complete list, please visit [cupertino.org/bikeplan](http://cupertino.org/bikeplan).
2 Stevens Creek Separated Bike Lanes *(Coming this Summer!)*
Stevens Creek Boulevard between Wolfe Road & Tantau Avenue

The separated bikeway project on Stevens Creek Boulevard will one day provide an east-west connection across Cupertino. The first phase of construction is funded and includes the section between Wolfe Road & Tantau Avenue. The project is planned to include bicycle-friendly traffic signals, allowing bicyclists to cross intersections without right-turning vehicle conflicts.

3 Bike Boulevards *(Coming this Summer!)*
Merritt Drive & Portal Avenue • Greenleaf Drive & Meteor Drive • East of De Anza • Shelly, Westacres & Kim • Fort Baker & Orange

Bicycle boulevards are planned to contain bicycle-friendly traffic-calming features, and are designated and designed to enhance livability and safety for people biking within the neighborhood, especially for those riders who may not feel comfortable travelling along major streets.

4 Carmen Road Bridge
Carmen Road

A bridge is being evaluated as a way that bicyclists and pedestrians may cross above Stevens Creek Boulevard, by continuing the existing alignment of Carmen Road in the neighborhoods north and south of Stevens Creek Boulevard, between Foothill Boulevard and Phar Lap Drive.

Link for more info: [cupertino.org/carmenbridge](https://cupertino.org/carmenbridge)

5 Junipero Serra Trail
Junipero Serra Channel, between Don-Burnett Bicycle-Pedestrian Bridge and Vallco Parkway

A multi-use bicycle pedestrian trail is being evaluated that may run parallel to Junipero Serra Channel and Calabazas Creek, providing a connection between the Don Burnett Bicycle-Pedestrian Bridge and Vallco Parkway. The project, if authorized, would include improvements at the Stelling Road, De Anza Boulevard, and Wolfe Road street crossings.

6 Regnart Creek Trail
Regnart Creek, between Pacifica Drive and East Estates Drive

A multi-use bicycle pedestrian trail is currently in design that may run parallel to Regnart Creek, providing a connection between Torre Avenue/ Pacifica Drive and the existing Creekside Trail at East Estates Drive. The project, if awarded construction, would include improvements at the South Blaney Avenue and East Estates Avenue street crossings.

The City of Cupertino’s Clean Water and Storm Protection program provides essential community services, including storm drain inspection and cleaning, trash and litter reduction, construction oversight, and environmental education. These services are critical in preventing flooding, sustaining a healthy environment, maintaining our aging infrastructure, and ensuring only clean water reaches our creeks, the Bay, and the ocean.

A small portion of the above activities are funded by a fee of $12 per home (and $144 per acre for non-residential properties) on property tax bills. The fee has not been increased since it was implemented more than 25 years ago, while costs continue to rise.

On March 5 the City Council voted to propose a new Clean Water and Storm Protection Fee to help pay for these services. The fee would be included as part of the annual property tax bill, and a notice of public hearing was mailed to all property owners in mid-March. This fee would be in addition to the one you already pay.

In late March and in April the City held four community meetings about the proposed fee. On May 7, the City Council will hold a public hearing on the fee and will determine whether there are enough written protests from property owners (which would be called a “majority protest”) to prevent the City from moving forward with the fee. If there is no majority protest, and if the City Council votes to move forward with the fee at that time, it is anticipated that ballots will be mailed to all property owners on May 17.

If you are a property owner, please look for your ballot in the mail shortly after May 17. Your opinion on this matter is important to us, so please vote.

You can view more information about the proposed fee, including the full text of the public hearing notice, at www.Cupertino.org/CleanWater.

Meet

Manuel Barragan

I started working for the City of Cupertino August 24, 1973 and my first position was as a heavy equipment operator. My interview was at the horse ranch (now McClellan Preserve) where they had me do a practical test. Two hundred people applied for the position and I got the job as the only heavy equipment operator to operate various equipment.

I’ve been able to work on a lot of projects that help the public. I helped build roads, pathways, concrete work and park improvements. As a Maintenance II worker in 2004, I was assigned a new responsibility to prevent storm water pollution. I was promoted to the position of Non-Point Source Inspector two years ago.

I’m called to help when there’s been an illegal pollutant discharge. I educate residents by showing them the law and explaining what they can and can’t do. When I start to discuss the problem, they are anxious. When I’m through explaining the situation, they realize that I am there to help them and lead them in the right direction. The public responds well to me because I have received 1,833 letters from people thanking me for educating them.

To me, Public Works means helping the public, listening to them and helping them with their concerns. That’s my main goal. I also enjoy working for Mr. Roger Lee. Mr. Lee is a very intelligent person that I go to for help. He’s got a lot of expertise and wisdom and I learn a lot from him. I want to work here until Mr. Lee retires. He’s the best employee of all the employees I’ve ever worked for at the City.
