COVID-19 Response Update

The City of Cupertino continues to monitor the effects of COVID-19 (coronavirus). The safety of our residents, staff, and visitors remains our highest priority. The following information regards the City's response to the latest recommendations from the County of Santa Clara Public Health Department, State of California, and CDC. These reports will be released every weekday at 5:00 p.m. For more information, visit www.cupertino.org/coronavirus.

County Gathering Information on Supplies of Personal Equipment and Ventilators

The Santa Clara County Public Health Department released an order today requiring all individuals and entities to disclose any large inventories of personal protective equipment (PPE) and ventilators. For more information, and to take the survey, visit www.sccphd.org/cv19PPE.

The order allows the Public Health Department to:

1. Know what supplies currently exist in the County.
2. Appropriately plan for a potential hospital surge.
3. Ensure the health and safety of frontline medical workers and patients.

What items must be reported? (Partial list only. Refer to full order for more detail)

- Nitrile or vinyl gloves (if more than 5,000 items)

Wear Non-Medical Masks When Doing Essential Activities Outside of Your Home

When going out for essential activities, members of the public should wear reusable, non-medical cloth face coverings to protect themselves, the Santa Clara County Public Health Department recommends. Reserve medical-grade masks for healthcare professionals who need them in order to continually provide care for our community.
