2010 CREST Award Nominations

Nominations must be in the Public Information Office at City Hall by 4:30 pm on Friday, March 12, 2010

The city is looking for nominations for the 2010 CREST (Cupertino Recognizes Extra Steps Taken) Award.

Get Fit in 2010

The City of Cupertino invites residents to take advantage of this special offer at the Cupertino Sports Center: Family Special – 3 Months for $199.

Free Home Energy Audits

Save money and energy while fighting climate change with Acterra Green@Home. Schedule your home for the audit today. This program is paid by City of Cupertino and is free to all Cupertino residents.
The CREST award honors outstanding community volunteers. Individuals or organizations making major contributions to the quality of life in Cupertino during the 2009 calendar year are eligible to be nominated for the CREST Award. Individuals of all ages will be considered. The CREST Awards presentation will take place on May 27 in the Community Hall. Any person, agency or organization is encouraged to submit nominees for consideration.

All nominations should be submitted online, mailed or hand-delivered, to the Public Information Office at City Hall by 4:30 pm on Friday, March 12, 2010. Applications postmarked on or before this date will not be accepted if they do not arrive by the deadline. Forms may be sent or brought to the Public Information Office, City Hall, 10300 Torre Avenue, Cupertino, CA 95014. Individuals may not nominate themselves nor may an organization nominate itself. A relative may not nominate a family member, and past recipients of CREST within the last five years are ineligible. Nominees need not reside in the city of Cupertino; however, the efforts for which they are being nominated should strongly impact the Cupertino community. For more information on the awards, online and downloadable nomination form, visit www.cupertino.org.

Did you know that the energy we use at home accounts for about 21% of the U.S. global warming pollution? This means that smart choices at home really can make a difference.

This FREE home energy audit and retrofit program is offered for all residents in the City of Cupertino, whether you rent or own.

To schedule your convenient 2½ hour appointment visit www.acterra.org/green@home and click on “Request a Free HouseCall.” No access to the internet? Please call 650.962.9876 ext. 350. It’s fast and easy to start conserving resources with Green@Home – so call or visit Acterra’s website today.

The Water Conservation in Landscaping Act of 2006 requires cities and counties to adopt landscape water conservation ordinances by January 1, 2010. The State Department of Water Resources (DWR) has prepared a Model Water Efficient Landscape Ordinance and a local jurisdiction may adopt its own ordinance, as long as it complies with the State ordinance.

Cupertino is collaborating with other agencies in the Bay Area to draft a local ordinance that focuses on: (1) conformance with state requirements, (2) streamlining the approval process, and (3) minimizing costs for applicants and homeowners. The new Water Efficient Landscape Ordinance will replace/update the City’s existing Xeriscape Ordinance. City staff anticipates that a final draft ordinance will be presented for Council’s consideration in March/April 2010. For more information, visit, www.cupertino.org/index.aspx?page=951

Fitness Tips
New Year, New Fitness Goals
This year, let’s make some basic new year resolutions, everything else will fall into place.

Resolution #1 – Eat better
• Make water your choice of beverage
• Have fresh cut and dry fruits for snacks
• Start reading the nutrition label
• Avoid processed food
• Start cooking at home.

Resolution #2 – Exercise at least 3 times a week
• Any heart pumping activity like brisk walking, running or swimming for 30 minutes or more
• Take stairs instead of elevator
• Keep your gym bag in the car

Stick to these resolutions and see yourself transform into a healthier you!

These tips are given by Shubha Bhargava, contact her at rshbargava@yahoo.com.

Are we prepared? That depends on you – the community at large. Are you prepared? Cupertino has developed emergency communication systems to notify you – the community at large – of City news and disaster information. We offer training to anyone who wants to know more about the disaster impact on their home and family.

We’ve even developed volunteer response teams who go out into the community to help the paid first responders identify and reduce hazards, assist the public with basic medical care, and provide up-to-the-minute status reports of our local area.

Here’s a quiz. What is... an ARK? an out of area contact number? the amount of water you have on hand right now? Where do you keep... your 12” crescent wrench or other gas shut off tool? your emergency medication supply? a paper copy of the numbers in your cell phone? If you have the right answers, you are more prepared than 75% of Cupertino... are we ready?

Here are some facts about earthquake response. The city does not stockpile food or water for its residents. Fire and Sheriff’s personnel and the 9-1-1 system will be overwhelmed. They will prioritize their response based on the greatest good for the greatest number of people. For example, if your house catches fire at the same time as any other building in the city that houses more people, you are not the priority. Time to process and respond to 9-1-1 emergency requests will go from 3-5 minutes to 3-5 hours. If your situation is not life threatening – even if it’s threatening property or is just really inconvenient, you may be denied assistance – depending on other priorities.

Author Amada Ripley has written a fascinating book called “The Unthinkable” that addresses the psychological reasons that people who are perfectly capable of managing day to day life have perished in emergencies because they failed to LEARN, UNDERSTAND and EXPECT certain disaster related issues and outcomes.

My hope is that you will read the book or take a Free personal emergency preparedness class. Our community is only as prepared as the sum of its parts!

If you do only one thing to prepare this month...
Start the new year off feeling good about preparedness! Take your brand new 2010 calendar and mark dates for you to complete these tasks:

- **February** – Check Cupertino website for emergency preparedness information
- **March** – Sign up for Personal Emergency Preparedness Workshop
- **April** – Talk with family about earthquake safety and what to do if you’re separated during the emergency (stay put or meet somewhere?)
- **May** – Talk with family about alternate methods of communication when cell phones and home phones are overwhelmed and unreliable after earthquakes. Don’t forget to give everyone your out of area contact number.
- **June** – Identify and drive by my local Community Emergency Reporting Location (also known as ARKs).
- **July** – Prepare an emergency kit for the car
- **August** – Test gas meter to see if the valve is stuck (only more _ turn or you’ll shut it off!)
- **September** – Review how to use a fire extinguisher
- **October** – Participate in citywide emergency drill on October 16 and 17, 2010
- **November** – Purchase one case of bottled water (equivalent to three gallons) Your goal is to have a case for each family member that you use and replace as a routine grocery purchase so this item may need to go on your calendar several times.
- **December** – Check/update car emergency kit for completeness (at least once a year)

**Upcoming Classes:**

**Personal Emergency Preparedness Workshop**
Free, February 26, 6:30-9:30 pm, March 23, 6:30-9:30 pm

**Kaleidoscope Public Safety Training for Young Adults**, February 15-19, 9-Noon

**Community Emergency Response Team Training**
Free, Five Wednesdays, March 10-April 7. Choose day (9 am to Noon) or evening (6:30 to 9:30 pm) Graduation Saturday, April 10 for all participants 9 am to 1 pm.

Pandemic Flu – Online presentation, visit [www.cupertino.org/flu](http://www.cupertino.org/flu) for info.

**One final note:**
I will be retiring on February 25, 2010 and want to take this opportunity to thank the Santa Clara County Fire Department, City of Cupertino, Santa Clara County Sheriff’s Office, community members and businesses for their continuing efforts to prepare themselves for the next big earthquake (and other emergencies). I’d especially like to thank the people whose passion and commitment for their community has motivated me for ten years to keep working toward 100% preparedness; the Office of Emergency Services Volunteers (Cupertino Amateur Radio Emergency Service, Community Emergency Response Team and Medical Reserve Corps).
One of the neat things about being a docent for the Cupertino Historical Museum at Quinlan Center, is meeting and talking to the people who drop in to see the museum exhibits or viewing the family treasures people bring in to add to the museum collection. In January, Audrey M. Hachen Breeding, who was visiting from the Sacramento/Roseville area, came in with relatives and donated some family treasures to our museum. There were photos of the Baer family, who lived at Cupertino Crossroads. Charlie Baer had the blacksmith shop in the old days and then fixed cars at the shop later on. The blacksmith shop sits down at McClellan Park and hopefully one of these days it will be restored and the public will be able to view it as a working blacksmith shop on special occasions. Also in the family treasures was a stack of small books, authored by Santa Clara Valley old-timer, Ralph Rambo. Mr. Rambo was a colorful character and prolific artist and author, whose little books on valley life are humorous (though some are no longer strictly p.c.) and contain a wealth of information and wonderful drawings that illustrate almost every page in each book. Rambo’s books are available to purchase at the San Jose History Museum and Park and some bookstores. The books donated to Cupertino Museum will be available for people to look at and read in the museum.

Some memorabilia from the old Cupertino Grammar School was part of Mrs. Breeding’s Collection and a wonderful postcard album started by her grandmother and continued by her mother. The antique postcards in the album are lovely. I spent an enjoyable hour looking through the 8th grade graduation/yearbook (1928) from old Cupertino Grammar School. Lots of names from the Cupertino community in the 1920’s and funny sayings from the students in their class “wills” to each other. Yours truly attended this old school in the 1st grade and back again for 7th grade, before the new Cupertino Middle School was built. Well remembered were the buckets on the floor between the school desks to catch rain coming through the leaky old roof. In 1st grade, Mr. Broughten came in with a butter churn and some milk and part of our school day was spent churning the milk into butter-milk and fresh butter which we then spread on saltine crackers. It tasted sublime.

The student who wrote and delivered this fine speech was George Fujii. Well said, George.

“One of us have realized for some time that if we are going to succeed in life, we should have a good strong character to build on. A strong character is as necessary to our success as a strong foundation is to a beautiful building. Being honest and sportsmanlike is one way to build character. To be a good sport we must be a good loser. It is more honorable to lose honestly than to win by cheating. If you know you are in the wrong, do not alibi. To have a good character is one of the best treasures of any person. Washington (George Washington) said, “Do not believe that fine clothes make fine men any more than fine feathers make fine birds.” It is also very important that we be good citizens. To be good citizens, we must begin by being good persons. Do the thing that you know is right though some of the others may object. I think one of the main things we should strive to develop is determination to succeed, even though the task is difficult. In closing I wish to quote from Abraham Lincoln, who has given us so much worthwhile advice. He has said, “When you cannot remove an obstacle, plough around it”.

The student who wrote and delivered this fine speech was George Fujii. Well said, George.

Hope everyone has a very Happy Valentine’s Day and Happy Spring! If you like mustard, don’t forget that our neighboring village of Saratoga has a fun Mustard Festival on March 1. The Santa Clara Valley Bee Guild will attend and give all kinds of information about keeping and enjoying bees.

For Your Information

DATABASES AND RESEARCH TOOLS
Santa Clara County Library subscribes to online databases for adults and children, on a variety of subjects, including business, science and literature. Many of the databases are available even when the library is closed. If you’re not at the library, just go to the library’s webpage at www.santaclaracountylib.org, click on databases, and enter your library card and PIN number to access a database. You may choose from any of the available databases. For example, you can research a company using Standard and Poor’s Net Advantage, prepare for an academic or professional exam with Learning Express or find information for a state report in America the Beautiful. If you have any questions about the databases, please call the Reference desk, at 408.446.1677, during the library’s open hours.

Spare the Air Program in the Bay Area

In order to protect public health, the Air District issues Spare the Air advisories on days when air quality is forecast to be unhealthy due to high ozone levels. These advisories are posted on the Spare the Air website www.sparetheair.org, recorded on 1.800.HELP.AIR forecast phone line, announced in local newspapers, and broadcast on local TV and radio stations.

The Winter Spare the Air season runs from November 1, 2009, through February 28, 2010. It is illegal to burn wood, pellets, or manufactured fire logs when a Winter Spare the Air Alert is issued. This applies to households and businesses with fireplaces or other wood-burning devices, such as hotels and restaurants. It is okay to use gas-fueled fireplaces and logs, gas inserts, or electrical fireplaces. On Spare the Air Days, we ask Cupertino residents to reduce pollution by making clean air choices every day. These simple actions include burning less wood, driving less, taking public transportation, trip-linking, walking, biking, choosing non-gasoline-powered lawn and garden equipment, and avoiding polluting household products.

Wood smoke is the biggest source of air pollution that individuals have the greatest power to control. Here are a few things you can do to reduce wood smoke pollution:

• Give your fireplace or wood stove the night off.
• Replace your fireplace or wood stove with a clean burning natural gas device.
• Switch to an EPA-certified wood burning device or pellet stove, which emit up to 70% less PM.
• Never burn, painted wood, treated wood, particle board, plastics, wrapping paper or other garbage; burning them releases toxic chemicals.
• Burn only dry hardwood fuel such as oak or cherry, which produces less smoke and burns hotter; never burn wet wood.
• Keep your fireplace and stove well maintained to improve air flow and reduce emissions.

Residents and businesses can sign up for email AirAlerts and/or automatic Phone Alerts to find out if there is a Spare the Air Alert, by visiting www.sparetheair.org.

Workshops to Build a Sustainable Garden

COMPOST WORKSHOPS
Visit the City’s website www.cupertino.org/environmental and click on Compost for the 2010 workshop schedule for Compost Basics workshops. Each class lasts about 2 hours and there is no charge to attend. Please call or E-mail for registration: 408.730.7262 or www.sunnyvalerecycles.org.

BAY FRIENDLY WORKSHOPS
Bay-Friendly Gardening program was developed to encourage residents to make environmentally friendly gardening choices that work with nature to reduce waste and protect the watersheds of San Francisco Bay. Find out how to build healthy soil, minimize fertilizer use, and select appropriate plants at any of these hands-on workshops. Four different types of classes are provided: Bay-Friendly Gardening Basics, Gardening from the Ground Up, Gardening to Manage Pests Naturally, and Let Worms Eat Your Garbage. To register for Bay-Friendly Gardening workshops visit www.reducewaste.org. For more information, call 408.918.4640.

Extra Winter Yard Waste?
Residents are reminded that an easy way to dispose of the extra yard waste that results from winter garden cleanups and pruning (that doesn’t fit in the yardwaste toter) is to make an appointment for a free “On-Call” Yardwaste/Woodwaste Recycling Day. All residents have the right to two Recycling or Trash Disposal Day appointments a year, starting each January. Branches can’t be larger than 6” in diameter and 6 ft. long. No loose piles. Please bundle or box branches and trimmings. The entire collection of yardwaste should not be bigger than 4’x 4’ x 8’. No plastic bags, please. Call the Los Altos Garbage Co. for an appointment: 408.725.4020.
Dispose of Household Hazardous Waste Safely, Conveniently and Free

Check your house, garage, and yard for common household products (such as cleaners, paints, car products, and pesticides) that may be hazardous to your children, your pets or the environment. Words such as danger, warning, caution, poisonous, and flammable on the labels can mean a product is toxic. Do not put such materials in garbage cans or storm drains. Residents wishing to make an appointment for disposal can now register online at www.hhw.org or call 408.299.7300. Typical materials that are brought in include: electronic waste, latex and oil-based paint, solvents, toxic cleaners, pesticides, batteries (car and household), mercury thermometers, old pool care products, used motor oil, antifreeze and other car fluids, fluorescent tubes and bulbs, hobby chemicals, photo developing chemicals, fertilizers and pesticides. There is no charge to residents.

How Do Cars Contribute to Bay Pollution?

As the rainy season gets underway, so does the peak time for water pollution. Automotive fluids leak onto streets then the winter rains wash the pollutants into storm drains which flow to our local creeks. There are many ways all cars contribute pollution to our watershed – and they can be prevented! Washing, changing oil, leaking fluids, and engine cleaning all contribute to the pollution problem. Auto fluids and particles from brake pad and tire wear build up on our driveways, streets and parking lots every day. During rainstorms, rainwater carries the oil, antifreeze, brake pad dust and other pollutants into the storm drain system and flows directly to local creeks and San Francisco Bay, where it can harm plants and animals that live there. Follow these tips when working on your car:

- **Fix all leaks as soon as possible.** Do not allow vehicles to drip fluids onto street, or into the gutter or storm drain.
- **Changing the Oil** – Work in an area that is easy to clean up, with a concrete floor if possible. Always use a drain pan when draining oil. Use a funnel to pour used oil into Used Motor Oil one-gallon plastic containers with tight fitting, screw top lids. (Milk and water jugs with pop-on lids are acceptable.) Lids must be taped securely! You may place up to two one-gallon containers next to your recycling bin for pickup. Place fully drained used oil filters in a sealed, leak-proof, plastic bag and place curbside next to your recycling bins.
- **Engine Degreasing** – Engine cleaners contain degreasers that contain highly toxic solvents that are dangerous to work with and harmful to our watershed. Read labels carefully before you buy.
- **Washing Your Car** – Washing your car in the driveway, street, or carport can carry detergents, oil, brake dust, metals and other chemicals to the storm drain that leads directly to local creeks and the Bay. Wash your car in an unapaved area or better yet, take it to a commercial car wash. Discounts are available at www.watershedwatch.net. Clean brake dust off wheels with paper towels and dispose of the towels in the trash. By protecting the watershed, creeks and Bay, you are protecting the environment for yourself, your children and future generations.

Annual Winter Used Book Sale

February 11, 4 pm, Library Story Room

The annual winter Cupertino Used Book Sale, hosted by the Friends of the Cupertino Public Library, will be held on February 20 & 21 in the Cupertino Community Hall located at 10350 Torre Avenue.

The will be a large inventory of books and other media for this sale, considerably larger than most of the winter sales. A wide assortment of books, compact discs and VHS tapes, spanning all types of subject matter: fiction, non-fiction, travel, health, home and garden, romance, cookbooks, children’s and young adult’s books, reference, science, engineering, foreign languages, history, test prep, humor and many other topics, will all be sold at very low prices. There is also a separate “Select” area where special interest books on popular subjects are offered at slightly higher prices.

Sale hours are Saturday, 9 am - 4 pm and Sunday noon to 3 pm. The children’s book area is open only to children from 9 am to noon on Saturday. The popular “Bag Day” is on Sunday where bags are sold for $3 each and bag buyers can fill up their bags from the remaining unsold, non-select books.
