GOT MEDICARE PART D?
Anyone currently enrolled in a Medicare Part D plan (Prescription Drug Plans), should re-evaluate their Prescription Plan to make certain the plan continues to meet their needs in 2008. From November 15 to December 31, 2007, they can join, switch, or drop a Medicare prescription drug plan. People who have HMO, PPO, or SNP are not affected by this timeline. People with retiree plans, please check with their health plan before making any changes.

Many prescription drug plans in 2008 have increased premiums or beneficiary cost sharing, and have changed their formularies. Some have reduced or eliminated “donut hole” coverage in 2008. When reviewing plans, consider whether the drug(s) will still be covered; if there is a need to switch some drug(s) to generic; if the out of pocket cost of drug(s) will increase, and whether drug(s) will be subject to new restrictions such as quantity limit, prior authorization, and/or step therapy.

Anyone needing assistance reviewing their current prescription plan can schedule an appointment with a HICAP counselor at Cupertino Senior Center by calling 408.777.3150 or Council on Aging at 408.296.8290. Cupertino Senior Center Case Manager, Karen Goss, is also available to answer questions about the prescription plans at 408.777.3155. Visit www.medicare.gov to compare these drug plans online.

Soft Harp Music for Christmas
Hear the music of Christmas accompanied by the harp.

**December 17, 18, 21, 24, 25, 28: TBA**

Remember to join or change Medicare prescription drug plans by DECEMBER 31
One of the advantages of living in the great community of Cupertino is getting to know people from all over the world and learning about their customs, festivals, and stories.

The Advent season is upon us in December, that period of four weeks marking the progression of events leading to the celebration of the birth of Christ. “Advent” derives from the Latin word “adventus” which means “coming”.

From Russia comes the tale of “Babushka”, (“grandmother”) told at Christmastime. According to one version of the story, Babushka fed the wise men when they came through her village on their way to find the Christ child. They invited her to go with them and bring a gift, but Babushka said she was too busy. After they left, she began to regret not going, and set out to find them. Eventually she reached the Holy Land, but by that time, Joseph, Mary and the child had fled to Egypt to escape the cruel Herod, and the wise men had returned to their countries. Babushka was very sad she had missed Jesus and it is said she is still looking for Him, sorry that she was so busy.

In Poland, the highlight of the season is Christmas Eve, as the families watch for the first star of the evening or “Gwiazdka” (one little star) in remembrance of the star of Bethlehem. Under family dinner tables or under the tablecloth, bits of hay are placed, a reminder that Jesus was born in a manger. At midnight, families attend “Pasterka”, the Shepherd’s Mass in cathedrals and churches. “Oplatek”, a special bread and “piernik”, a honey cake, are two of the many foods associated with Christmas in Poland.

Christmas in Greece is a traditionally solemn religious holiday. Throughout all the festivities, there is no question that in Greece, Christmas is about remembering Christ. Beautiful carols called “kalandas” have been handed down from Byzantine times and add to the reverent quality of the celebration. In the remote countryside villages, stone corrals protect precious livestock and the clear, starry skies are not far removed from the night in Bethlehem over 2,000 years ago.

In northwestern India, tribal Indian Christians go out every night during the Christmas season to sing special Christmas carols the whole night through. They visit surrounding villages, singing to the residents and telling the Christmas story. In Mumbai, Christian families display the nativity creche in their front windows and hang huge paper lanterns shaped like stars above the street, making a twinkling canopy of stars for passers-by. Since the majority are Catholic Christians, attendance at midnight mass and family dinners are the custom.

Although Christianity is unsanctioned in China, in recent years midnight masses have seen an overflow of people, coming to celebrate Christmas. In homes, paper lanterns and paper chains adorn small trees.

These are just a few of the many lands and Christmas customs represented by folk from different countries that have come to live in Cupertino. There are wonderful books in the Cupertino library, (especially in the children’s room) and also in church libraries, telling about Christmas and customs from countries all over the world. The account of Christ’s birth may be found in the gospel of Luke, in the New Testament.

questions about residents’ cell phone and wi-fi experience in the city. This article covers the results relating to cell phones. A future Scene article will focus on the wi-fi results.

Over the survey period of three weeks, we received 614 unique responses from different addresses within the city. The responses were evenly distributed throughout all areas of the city. The number of results and distribution meant that we have very high confidence that the results reflect the experiences and views of the community as a whole.

The survey asked which cellular carriers residents used, the quality of service, and probed about concerns relating to the perceived safety and esthetics of cell phone towers. The survey also explored potential safety and security concerns arising from poor cell phone service. This topic was in recognition of the growing trend toward exclusive use of cellular phones as opposed to wired phones in the home. We also provided an opportunity for survey participants to note specific locations of poor cellular coverage and detailed comments on any other issue relating to cellular phones.

Significant Survey Results

1. Cellular usage in Cupertino is dominated by Verizon (44%) and AT&T (38%) Sprint (7%) and T-Mobile (6%) are next with all others less than 5%.

2. Approximately 50% of residents report fair, poor, or non-existent cellular coverage at their locations. We did not attempt to quantify the exact meaning of those terms, but based on detailed comments, it is very likely those respondents commonly experience poor voice quality, dropped calls, and/or non-connections.

3. Approximately 10% of respondents expressed severe to moderate concerns about the safety of cell phone towers.

4. Approximately 20% of respondents expressed severe to moderate concerns about the esthetics of cell phone towers.

5. Approximately 15% of respondents expressed severe to moderate concerns about safety or security issues relating to poor cell phone coverage.

6. Approximately 25% of the respondents highlighted an area of particularly poor cellular coverage. Three locations stuck out in those responses—the Kennedy Middle School/Monta Vista High School area, Foothill Boulevard from I-280 to Stevens Creek, and DeAnza Boulevard from Stevens Creek to Homestead. The DeAnza Blvd. result is surprising given the number of existing towers in that area.

7. 71 respondents wrote detailed comments relating to cellular coverage. Of those comments, all but one expressed concern about poor cellular service at their locations and wanted coverage improved.

In September the TICC reported its findings to the Cupertino City Council. Recognizing that there was a substantial problem with the quality of cellular coverage in the city, the Council directed the TICC to work with city staff to develop a plan to remedy that problem. The TICC and city staff are actively exploring ways to improve coverage. We have had discussions with the key carriers and have received several encouraging comments and ideas from residents. Look for a future Scene article on the plan when it is finished. If you have ideas, comments, or questions about the survey, the results, or the plan under development, please email ticc@cupertino.org.

Six Asian American community members and two organizations in Santa Clara County were recognized for their exemplary contribution and leadership at the Asian American Hero Awards, presented by Santa Clara County Supervisor Liz Kniss. Conceived by her, the awards program acknowledges members of the Asian American community for commitment to civic leadership, the arts, education, and health and human services, as well as honoring outstanding community organizations, families or teams. Hema Alur-Kundargi of Cupertino was awarded in the education category for her efforts to inform the public about Indian traditions. She said that it is always nice to be recognized for one’s hard work. “For me, it is like icing on the cake. This award encourages me to continue what I’m doing - educating people about Indian culture and promoting understanding between communities.”

Cupertino Resident Awarded Asian American Hero Award
Earthquake! Just when you thought it was never going to happen... it did. The good news is, it wasn’t that bad. The bad news is, we can’t predict when the next one will occur or how bad it will be. Education is the key to staying safe.

After the ground stops shaking, do you know how to tell if your house is structurally safe to be in? Broken windows are not structural damage. Things falling off shelves aren’t either. Here are some simple guidelines to follow and check for real structural damage.

- First, walk around the outside of the house. Be careful. Things on the roof (like tile or bricks) may have been shaken loose and are ready to drop on your head.
- Look at the house foundation for any new cracks or shifting. Homes built after 1960 are less likely to have foundation issues. Also look at the ground for any cracks.
- Check the gas meter and turn off the gas if you smell gas, hear hissing sounds or see the gas meter dial spinning unusually fast.
- Check the horizontal and vertical lines of your home. Stand at each side of the house. Hold a pencil or pen at arm’s length, in front of your face, and close one eye. Line up the pencil/pen with the horizontal and vertical lines of your house to see if they’ve “shifted” because of cracking or other stress. If they have, you may have structural damage that could get worse with aftershocks.
- If you don’t see any foundation damage, or changes in horizontal and vertical lines, go inside and look at the walls. You can expect to see 45 degree cracks around large windows because the glass is not strong enough to support the wall. This causes a lot more stress on the surrounding structure. Hairline cracks are OK. If the cracks are wider, the wall is probably damaged and susceptible to aftershocks.
- Finally, open and close doors. If they are difficult to open, or stuck, the building may have shifted.
- If you suspect structural damage, you should not go back inside your home. The city is responsible for inspecting every building for safety but it may take up to 14 days to check them all.

Fortunately, this recent earthquake wasn’t strong enough to cause damage in Cupertino but the next one could be. We have another chance to be ready. Imagine what it would have been like to stand in front of your house and not be able to go back inside.

Here are some things you can expect after a major earthquake: no electricity, no telephone service, no gasoline, very limited and delayed medical assistance and fire response, closed grocery stores. Remember you can harm yourself if you drink water out of the faucet and harm the environment if you flush toilets when lines have been damaged. Make a plan to address each one. All have simple remedies if you think them through. (Note: earthquake insurance will not solve any of these issues.) Need a little help? Attend a Personal Emergency Preparedness workshop.

PREPARE YOURSELF, ONE MONTH AT A TIME
When you start transferring information onto your 2008 calendar, don’t forget to schedule days to check or purchase emergency supplies and take a Personal Emergency Preparedness workshop.

To keep the kids busy this holiday season, log on to www.cupertino.org/emergency and click on “Preparedness Info for Kids”. You’ll find many interactive websites that will teach kids (and adults) about safety and emergencies. P.S. Emergency supplies make great Christmas gifts.

UPCOMING CLASSES
Pandemic Flu – What should you know? How will the county plan for a pandemic? How should you prepare? Free community presentation, is being offered Wednesday, January 30, 7:30-9 pm, Cupertino Community Hall, 10350 Torre Ave.

Simply Safe is a monthly article provided to inform the community about emergency preparedness, training schedules and volunteer opportunities. Contact the Cupertino Office of Emergency Services (OES) at 408.777.3335, email OES@cupertino.org, or go to the website www.cupertino.org/emergency for more information.
The holiday season is always a special time of year. It is also a time when busy people can become careless and vulnerable to theft and other holiday crime. We can never be too careful, too prepared or too aware. Please share this information with family, friends and neighbors.

**DRIVING:** Keep all car doors locked and windows closed while in or out of your car. If you must shop at night, park in a well-lighted area. Never leave your car unoccupied with the motor running or with children inside. Do not leave packages or valuables on the seat of your car. This creates a temptation for thieves. If you must leave something in the car, lock it in the trunk or put it out of sight. Be sure to locate your keys prior to going to your car. Keep a secure hold on your purse, handbag and parcels. Do not leave them down or on top of the car in order to open the door. When approaching and leaving your vehicle be aware of your surroundings. Do not approach your car alone if there are suspicious people in the area. Ask mall or store security for an escort before leaving your shopping location.

**AUTOMATED TELLER MACHINES (ATM):** If you must use an ATM, choose one that is located inside the mall, or well-lighted location. Protect your PIN by shielding the ATM keypad from anyone who is standing near you. Do not throw your ATM receipt away at the ATM location.

**SHOPPING:** If you shop at night, go with a friend or family member. Avoid wearing expensive jewelry. Even though you are rushed and thinking about a thousand things, stay alert to your surroundings. Avoid carrying large amounts of cash. If you do, do not “flash” your money wad. Divide up your cash into smaller amounts and keep in separate pockets. Notify the credit card issuer immediately if your credit card is lost, stolen or misused. Be extra careful if you do carry a wallet or purse. They are the prime targets of criminals in crowded shopping areas, transportation terminals, bus stops, on buses and other rapid transit. Avoid overloading yourself with packages. It is important to have clear visibility and freedom of motion to avoid mishaps. Beware of strangers approaching you for any reason.

**CHILDREN:** Teach your child to go to a store clerk and ask for help in case your child is separated from you. Teach children to stay close to you at all times while shopping. Never allow children to make unaccompanied trips to the restroom.

Young children should never be allowed to go to the car alone and they should never be left alone in the car. Teach children their full name, address and telephone number to give to police officers or mall security. For younger children, place a note with your emergency notification information in their pocket. The note could read, “If I am lost, please call…. My mommy’s name is…..” Teach children to immediately inform you if a stranger is bothering them.

**HOME:** Be extra cautious about locking doors and windows when you leave the house, even for a few minutes. When leaving home for an extended time, have a neighbor or family member watch your house and stop your newspaper and mail service. Indoor and outdoor lights should be on an automatic timer. Leave a radio or television on so the house looks and sounds occupied. Large displays of holiday gifts should not be visible through the windows and doors of your home.

When setting up a Christmas tree or other holiday display, make sure doors and passageways are clear inside your home. Be sure your Christmas tree is mounted on a sturdy base so children, elderly persons or family pets cannot pull it over on themselves. If you use lights on your Christmas tree ensure the wiring is not damaged or frayed. Frayed or damaged wiring can cause a fire. Never place wrapping paper in your fireplace.

It is not uncommon for criminals to take advantage of the generosity of people during the holiday season by soliciting donations door-to-door for charitable causes although no charity is involved. Ask for their identification. If it is a for profit business, they must have a permit from the city of Cupertino on their person. If you are not satisfied, do not donate and call 911.

**HOLIDAY PARTIES:** Never drink and drive.
HOLIDAY GARBAGE DATES
Since Christmas and New Years Day fall on Tuesday, residential trash and recycling service has been rescheduled “a day behind” for the entire last week of Dec. and the first week of Jan. Regular Monday service will be provided, Tuesday service will be provided on Wednesday, Wednesday service will be on Thursday, etc., with Friday customers serviced on Saturday.

RECYCLING DURING THE HOLIDAYS
Did you know that we will create more than 25% more waste during the holiday season than any other time throughout the year? This means an extra 5 million pounds of waste is generated between Thanksgiving and New Year’s Day in the United States. By practicing simple, earth-friendly behaviors, we can significantly reduce the amount of garbage that is land filled during the festive season. Here are some recycling and garbage reminders:

Christmas Trees: Christmas trees will be collected at homes in Cupertino on regular collection days from January 2 through 31. Trees should be set out by 6 am, cut into 4-foot lengths, with all decorations and stands removed. Place trees in tan yard waste cart or at the curb. Trees will be picked up at apartment and condominium complexes during the same period. Managers should call Los Altos Garbage Co. when the complex is ready for tree pick-up at 408.725.4020. Flocked trees are accepted for composting.

Corrugated Cardboard: Corrugated cardboard can be placed in the blue recycling cart or flattened and placed alongside your recycling cart. Residents living in apartments or condominium complexes should ask managers where cardboard is collected on-site. Boxes must be flattened and cut into 3-ft by 3-ft pieces. If desired, large quantities can be taken to the Sunnyvale Recycling Center at the north end of Borregas Ave. Call 408.752.8530 for more information.

Styrofoam: Blocks of styrofoam, placed in clear plastic bags, can be placed in your blue cart. While Los Altos Garbage company does not accept Styrofoam “peanuts” for recycling, they are accepted at all UPS Stores. Closest store is at 1072 S. DeAnza Blvd, 408.253.6561. Residents who have the new type of “peanuts” made of cornstarch, may stir them into a compost pile or a dirt area and dissolve them in water.

Wrapping paper: Gift wrapping paper can be included with other recycling at curbside. (Most apartment and condominium complexes have paper recycling in toters.) Plastic-coated and foil wrapping paper and ribbons and bows cannot be recycled.

No limit: Remember that there is no limit to the amount of recyclables that can be set out on your collection day. (Although, yardwaste should only be set out in your yardwaste toter.) Extra recyclables can be placed in boxes and set next to the full cart.

Cans and bottles: Place a well-labeled recycling container next to trash containers at parties to make it easy for guests to recycle.

Produce Less Waste and Smart Holiday Shopping
Avoid producing unnecessary waste that needs to be recycled or disposed of this holiday season. Make these practices part of your holiday routine:

• Give an experience and create a cherished memory, such as tickets to a movie, sporting event, stage play, restaurant, salon spa, manicure/pedicure. The choices are endless.
• Gift a gift to the environment such as a battery charger with rechargeable batteries, bus/light rail/train passes, live plants and gardening tools.
• Package gifts in reusable gift bags
• Bring your own bags to the store
• Be creative and have fun. Have an environmentally smart holiday season.

EXTRA HOLIDAY TRASH?
On-Call Disposal Days: Residents (with garbage can service) are reminded that they have the option of using their two free On-Call Disposal Days for disposal of large amounts of trash. Schedule a Disposal Day by calling the Los Altos Garbage Company at 408.725.4020. For details, visit the city’s website at www.cupertino.org/environmental (click on Garbage) or call the garbage company.

Extra Bag Tags: Another option for residents who periodically generate extra garbage is “Extra Bag Tags.” Place extra trash in plastic trash bags and attach a tag to it where your garbage collector picks up. Bags cannot be larger than 32 gallons or weigh more than 25 pounds. Tags cost $5.57 each or 10 for $52.93, and are available from the Los Altos Garbage Company, call 408.725.4020.
WHAT TO DO WITH YOUR OLD COMPUTER

If you received new computer equipment during the holidays and want to recycle your old computer, try these organizations:

• **Resource Area For Teachers (RAFT)** in San Jose, 408.451.3853, www.raft.net
  A non-profit that provides used, working computers to teachers and other non-profit agencies.

• **Computer Recycling Center** in Sunnyvale, 1.888.887.3372, www.crc.org
  A non-profit that redistributes working computers to teachers and other non-profits. Accepts working and nonworking equipment. Some charges may apply.

• **City of Cupertino and Apple Computer’s free electronics recycling program**
  408.862.2667. Mondays, Wednesdays, and Fridays 8-4:30 at 10300 Bubb Road. The program accepts all computer components and peripherals (PCs and Macs), fax machines, VCRs, stereo equipment, home copiers, DVD players and TVs. Bring proof of residency. The facility will be closed December 24 through January 1.

JUNK MAIL KITS

If your mailbox is becoming overwhelmed with holiday catalogs and solicitations that you don’t want, start reducing the flow of mail to your house by using a Junk Mail Reduction Kit. Find the kit on-line at www.cupertino.org/environmental, the Quinlan Community Center, City Hall, or call Public Works at 408.777.3354 for your free copy.

WOOD BURNING TIPS

The burning of wood in fireplaces and wood-stoves is a major source of air pollution during the winter months.

Here are a few tips on how to reduce air pollution:

• Instead of wood, use manufactured fire logs (they burn 50% cleaner)

• If you burn wood, make sure it’s dried or “seasoned” for six to twelve months

• Never burn garbage or chemically-treated wood

• Consider switching to a gas fireplace (for the ambiance of a wood fire without the gases and the pollution)

A free copy of the California Air Resources Board’s Wood Burning Handbook can be found at the Quinlan Community Center and City Hall.
