The City’s sign regulations are included within Title 17 of the Cupertino Municipal Code and can be found on the City’s website at www.cupertino.org/planning under the section on Excerpts of the Municipal Code.

Suggestions from residents, business owners, and interested parties on the sign ordinance may be provided to the Planning Department at City of Cupertino, Planning Department, 10300 Torre Avenue, Cupertino, CA 95014 or by email at planning@cupertino.org prior to 5:30 p.m. on November 22, 2005. **Bicycle Safety Tips**
by May Koski, member of the Cupertino Bicycle Pedestrian Commission

Bicycles today are lightweight, fully geared, and can provide a dependable means of transportation to school, work, and social activities. Bicycles give independence and added responsibility to student riders. Stay safe by becoming street smart.

1. Wear a bicycle helmet & BUCKLE IT!

   The helmet should be level and it needs to cover your forehead. Adjust the chin strap so it is snug, but not uncomfortable. An unbuckled strap is USELESS. Wearing the chin strap too loose may result in the helmet flying off in a fall. Get a helmet that is approved by the Consumer Product Safety Commission. You can get help finding and fitting a helmet at any bike shop.

2. Adjust your clothes so that your pant leg, shoelace, or backpack strap does not get caught in the bike chain.

3. Be seen and stay safe! Bright clothing and reflectors on your bike or backpack will help drivers see you coming.

4. Ride with traffic, in the bike lane if there is one. Drivers do NOT expect to see bicycles, scooters, or skateboard traveling against traffic, even in the bike lane.

5. Shed the iPod, walkman, and headphones before you ride. It is important to hear what is going on around you. Stop to answer your cell phone.

6. Look before crossing traffic, and stop to walk your bicycle across traffic if needed. Try to make eye contact with drivers as you pass in front of their cars. As you look behind you while riding, be aware that you may veer slightly in the direction your head is turned.

7. Ride at a speed that enables you to stop quickly. Be aware when you pass driveways. Watch for opening doors as you pass parked cars.

8. Don’t ride on the sidewalk unless you don’t feel safe on the road. Pedestrians have the right of way, so prepare to walk your bicycle if they are present.

Flood Preparation

As this year’s rainy season begins, residents should check to be sure that they’re prepared for the possibility of flooding in their neighborhoods. Those with property located in a flood zone especially should be aware that standard homeowner’s insurance policies do not cover losses caused by floods or mudslides. Property owners can protect against potential flood damage by purchasing flood insurance and by preparing a family disaster plan.

According to the Santa Clara Valley Water District, some areas in Cupertino along Calabazas Creek are considered at risk for flooding; property near Stevens Creek is also at risk, but to a lesser degree.

The city provides the following services to help residents prepare for potential flooding:

1. Residents can find out if their property is in a flood zone by visiting the Cupertino Public Works Department (call 777.3354 for details). The Public Works Department also offers elevation certificates for new buildings constructed in the floodplain.

2. The City’s Building Department has a booklet called “What You Should Know Before You Hire a Contractor”. Booklets are available at City Hall.

3. Other information on flood preparedness is available on the Cupertino website at www.cupertino.org/emergency. Or, you can pick up brochures at the Community Emergency Training Center at Vallco Mall.

4. Additional flood protection information and assistance can be obtained on the FEMA website at www.fema.gov.

5. The Cupertino Library also holds publications for flood preparedness.

The city’s storm drainage system is composed of street gutters, the storm drain sewer inlets (at street corners), and the pipes that connect the inlets to local creeks. This system drains street runoff into the creeks and channels on the valley floor.

Residents can assist the city, and help protect their immediate neighborhood from localized flooding, by sweeping gutters regularly and checking that nearby storm drain grates are not covered with leaves or litter. Residents should abide by street sweeping/no parking signs to allow the city to keep the gutters clean and the storm drain system flowing. The city routinely sweeps the gutters in residential areas twice a month and in commercial areas once a week.

In the fall, before the rains start, a city contractor vacuums out city storm drain inlets, and checks for any evidence of hazardous materials in the drains. This cleaning prevents any illegally dumped materials that may be sitting in the inlets, from washing into our creeks with the first rains.

It is illegal to dump anything into a creek or a storm drain. Residents can report dumping incidents to the city by calling 777.3269 during office hours and 911 after hours and on weekends.

The application for CRS membership was coordinated by local resident Nina Daruwalla, engaged for the task by Cupertino Emergency Services. Contact your insurance provider to see if you qualify for a discount.

Thanksgiving Day History

I hope many of you were able to attend the 50th anniversary celebration of our fair City of Cupertino in September. It was a wonderful event and many thanks to all who worked so hard to make it a success. I enjoyed writing the Roots articles about the history of Cupertino and have a deeper appreciation of the hard work accomplished by all those who went before us. We have many blessings and much to be thankful for.

In looking back at history and the origins of Thanksgiving Day - almost everyone knows the story of that first “day of thanks-giving” in 1621, when Pilgrims and Indians sat down together to feast on food brought and prepared by both groups, played games and at least for some years thereafter were able to live in peace.

Later on, in early New England, it was the custom at Thanksgiving time to place five kernels of corn at every place at the table as a reminder of that horrible first winter when their food had been used up and the Pilgrims were rationed five kernels of corn to each individual still living. It was all they had. Later, the Pilgrim Fathers wanted their children to remember the sacrifice, sufferings and hardships through which they had passed. They wanted to keep alive the memory of that 63-day trip taken from England to the New World in a tiny, cramped ship. They wanted to remember the cold, rocky and inhospitable coast on which they finally landed and the loss of nearly half their members that first winter. They wanted to remember that on the day they had received their five kernels of corn, only seven healthy colonists remained to nurse the sick and nearly half their members lay in shallow graves on a nearby hill. The five kernels of corn were also a reminder to them that God had protected and preserved them through all their hardships and sorrow.

In 1863, President Abraham Lincoln, weary and heartsick over the Civil War, wrote, “...that the awful calamity of civil war which now desolates our land ... may be punishment inflicted upon us for our presumptuous sins, to the needful end of our national reformation as a whole people?” He reminded Americans how blessed they have been as a country but that they have become “intoxicated with unbroken success” growing in wealth and power, but becoming too proud. He asked Americans to set apart the last Thursday in November as a day of Thanksgiving and praise to God, thanking him for all our blessings.

The Union Church of Cupertino (the first non-denominational house of worship in Cupertino) celebrated its first Thanksgiving service in 1888. That was only 24 years after the Civil War. While California and Santa Clara County were far removed from those states where battles were fought, many from those areas came here after to begin anew. Memories were still fresh and there was much to be thankful for in this new place, much as the Pilgrims had given thanks over 250 years before.

As we gather together around our tables this year, let us remember and give thanks also. Happy Thanksgiving everyone!

Stars on Velvet Black

By Alice Chen

We live in a country where our lives are our own
And our dreams can reach for the stars
Yet so many choose to let that light fade away
And gaze emptily away to afar

We are protected and sheltered from storms
And can bathe in the warmth of a hearth
Yet families are ruined by the hands of our own
And the lives of many torn apart

We were given so much that others do not have
And the choices to choose our own way
Yet so many remain blind to this treasure they hold
And it slips away like the passing of day

Tell me why our people cannot see the stars
Why they look only for what they lack
For here there is more than the world can dream
Or is it that light only makes the heart black

Tidepools

By Alan Hong-Dang Nguyen

I go to the tidepools when I’m sad,
I know it won’t help,
I tell my sorrows to the waves,
Though he just pushes them away
I would think

He would know, for I’ve known him awhile,
I would wait for an answer at shore,
I wanted to scream,
And be free of all sadness until I saw myself

Looking deep into the waves,
As I watched my reflection smiling at me,
And then I realized,
My sadness was gone

Pet Safety from Coyotes and Bobcats

The city of Cupertino is urging all residents with pets to take simple precautions to protect those pets from potential harm from wildlife. Residents should remember the following:

- Never feed native animals
- Do not leave edible trash where wild animals can get it, and secure containers inside your garage.
- Do not leave pet food outside.
- Do not allow your pets to run free.
- Be aggressive toward wild animals. If one approaches, make loud noises or throw rocks so that the animal will run away.
- Most animal bites occur when people try to feed the animals.

Coyotes and bobcats are natural predators that are normally wary of human beings when these animals are living in their native habitat. In urban areas, these animals become less fearful. They have learned to adapt to living near subdivisions and hunting for food in residential neighborhoods. It is rare that a bobcat or coyote will attack humans, but small cats and dogs may be easy prey for them.
