IMPORTANT NOTICE - FEE INCREASE AS OF JULY 1, 2014

To: ALL CITIES AND COUNTIES

Strong Motion Instrumentation and Seismic Hazard Mapping

This is to inform you that legislation under SB 861 (Chapter 35, Statutes of 2014) has amended Section 2705 of the Public Resources Code to increase the seismic fee for building permits effective July 1, 2014 to provide for increased mapping of faults. The increased fee will be as follows:

- $10.00 per $100,000 for 1-3 story residential buildings will increase to $13.00 per $100,000
- $21.00 per $100,000 for commercial and over 3-story residential buildings will increase to $28.00 per $100,000.

Revised fee schedules are enclosed to assist you in computing the new fees. The 5% retention of fees collected will also be correspondingly increased. If you have any questions, or need additional information, please contact Karla Rasmussen at (916) 322-2856 or e-mail Karla.rasmussen@conservation.ca.gov.

Sincerely,

Clayton Haas
Assistant Director,
Division of Administration

Enclosures
Method 1

The fee amount can be calculated from the permit valuation amount using the formula:

\[(\text{Valuation Amount}) \times 0.00013 = \text{Fee Amount}\]

As an example, the fee for a $128,580 valuation is $128,580 \times 0.00013 or $16.72

Method 2

As an alternative to Method 1, the fee for a given valuation can be calculated using the following table, as illustrated below:

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

The fee amount can be obtained by breaking the $100,000 $13.00
Evaluation amount into parts using the entries in 20,000 2.60
This table. An example for a permit valuation of 8,000 1.04
$128,580 is shown at the right:

\[
\begin{align*}
\text{Valuation} & \quad \text{Fee} \\
$128,580 & \quad \$16.72 \quad \text{Fee Amount}
\end{align*}
\]

*Notes:*

1) The minimum fee is 50 cents, so the fee for any valuation up to $3850 is simply $.50.
2) Category 1 construction includes residential buildings 1 to 3 stories in height, except hotels and motels. Single family houses, duplexes and quadruplexes are in Category 1. Condominiums and apartment buildings are in Category 1 only if they are 3 stories or less in height.
3) A "building" is defined as a structure built for the support, shelter or enclosure of people, animals or property.

Fee Schedule
Strong-Motion Instrumentation and Seismic Hazard Mapping Fee

Category 2 Construction * (Over 3 story Residential and all Commercial)

Method 1

The fee amount can be calculated from the permit valuation amount using the formula:

\[(\text{Valuation Amount}) \times 0.00028 = \text{Fee Amount}\]

As an example, the fee for a $1,231,890 valuation is $1,231,890 \times 0.00028 or $344.93

Method 2

As an alternative to Method 1, the fee for a given valuation can be calculated using the following table, as illustrated below:

<table>
<thead>
<tr>

<td>$9,000,000</td>
<td>$2,520.00</td>
</tr>
</tbody>
</table>

The fee amount can be obtained by breaking the evaluation amount into parts and using the entries in this table. An example for a permit valuation of $1,231,890 is shown at the right:

$1,000,000 $280.00
200,000 56.00
30,000 8.40
1,000 0.28
800 0.22
90 0.03
$1,231,890 $344.93 Fee Amount

* Notes:
1) The minimum fee is 50 cents, so the fee for any valuation up to $1786 is simply $.50.
2) Category 2 includes all buildings not in Category 1. For example, Category 2 includes residential buildings over 3 stories, all office buildings, warehouses, factories and other manufacturing or processing facilities, restaurants, and other non-residential buildings.
3) A "building" is defined as a structure built for the support, shelter or enclosure of people, animals or property.
